Contents

Chapter 1 - Basic Data

- 1.1 Regional spread
- 1.2 Sizes
- 1.3 Ownership
- 1.4 Teaching languages
- 1.5 Courses time
- 1.6 Training types
- 1.7 Premises
- 1.8 Categories of occupation
- 1.9 Growth history

Chapter 2 - Students Population

- 2.1 Distribution according to sex
- 2.2 Regional distribution
- 2.3 Distribution according to occupational categories
- 2.4 Distribution according to the training levels
- 2.5 Distribution over NGOs and individually owned schools
- 2.6 Geographic comparison between public and private schools
- 2.7 Graduates

Chapter 3 - Cost Evaluation

- 3.1 Teachers distribution over regions
- 3.2 Equivalent number of full time instructors
- 3.3 Estimated teaching cost
- 3.4 Other costs
- 3.5 Tuitions
- 3.6 Results

Chapter 4 - Sponsored training

- 4.1 National office for employment
 - 4.1.1 Sponsored schools
 - 4.1.2 Specialities
 - 4.1.3 Sponsoring conditions
- 4.2 The Ministry of Social Affairs
 - 4.2.1 Programmes
 - 4.2.2 Number of students
 - 4.2.3 Financial contribution
- 4.3 The YMCA
 - 4.3.1 Activities
 - 4.3.2 Specialities

Annexes :

- Annexe 1 - List of VTE private schools / basic information
- Annexe 2 - List of specialities in public and private schools
- Annexe 3 - Courses offered in the various categories of occupation

Chapter 1

Basic data

Introduction

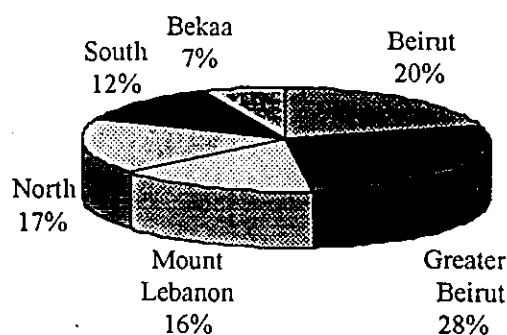

This report presents a summarized information about the private schools activities and their contribution in satisfying the demand for technical education and vocational training.

Figures and information reported reflect the situation during the school year 1996 - 1997.

1.1 Regional spread

The total number of running schools is 302. Table (1.1) shows their regional distribution.

Zone	Number of schools	Percentage of schools (%)
Beirut	60	20.07
Greater Beirut	83	27.67
Mount Lebanon	48	16.05
North	51	17.06
South	37	12.37
Bekaa	20	6.69
Total	299	100.00

Geographical distribution of the private TVE schools
Table (1.1)

Table (1.1) calls for the following observations :

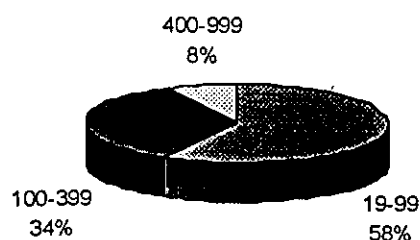

- 48% of the schools are situated in Beirut and its suburbs. This concentration reflects the present active population concentration in this region.
- Only 7% of the schools are situated in the vast Bekaa mohafazat where the population density is the lowest.

1.2 Sizes

Private schools are of a rather smaller size than public ones. For more than 58% of their total, the students number does not exceed 100 and only 7.5 % receive more than 300 students. It is worth mentioning that 17% of the schools have less than 20 students.

Table (1.2) illustrates this situation.

Number of students	Number of schools	Percentage of schools (%)
19 and less	51	17.06
20 - 49	64	21.40
50 - 99	59	19.73
100 - 199	61	20.40
200 - 299	27	9.03
300 - 399	14	4.68
400 - 499	6	2.01
500 - 999	11	3.68
1000 and more	6	2.01
Total	299	100

Classification of schools according to the number of students
Table (1.2)

1.3 Ownership

By law, a private school must be licensed by a governmental decree delivered to a specific person - physical (individual) or moral (association, i.e. NGO).

39% of the total schools are owned by NGOs while 61% are the propriety of individuals.

1.4 Teaching languages

French, Arabic and English are used as main teaching languages. The schools are free to choose any teaching language.

Table (1.3) depicts the distribution of the private schools as for the mainly used language.

Language	Percentage of schools (%)
French	36
French - English	20
English	9
Arabic	35

Repartition of schools according to the language used
Table (1.3)

1.5 Courses time

Schools may run day time or evening courses, or both :

- 9% of the schools run only evening courses.
- 80% run only day time courses.
- 11% run both shifts.

1.6 Training types

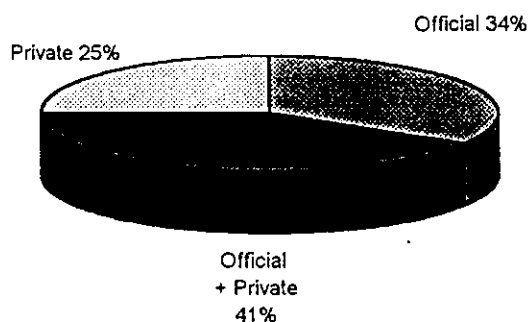

Private schools are not allowed to deliver diplomas. They may prepare their students to obtain official certificates (diplomas) delivered by the MTVE - through public exams - or they run some short specific training courses, generally called "private specialities". Students enrolled in those private specialities receive a registration attestation delivered by the school and authenticated by the MTVE.

Private specialization courses range in two categories :

- One semester training, where training extends on a period of about 120 hours.
- Two semester training, with a training of about 500 hours.

Table (1.4) describes the distribution of schools according to the training types they offer.

Mohafazat	Schools having			
	Official specialities	Official + Private specialities	Private specialities	
Beirut	20	24	14	
Greater Beirut	21	40	21	
Mount Lebanon	17	21	10	
North	19	17	15	
South	18	14	8	
Bekaa	6	8	6	
Total	101	124	74	299
Percentage	33.78 %	41.47%	24.75 %	100

Classification of schools according to their specialization paths

Table (1.4)

1.7 Premises

227 schools provided information about their premises and equipment. Upon this information the following figures showed up : the number of classrooms is estimated to be 5070. 143 schools have laboratories and workshops while 118 schools have libraries.

1.8 Categories of occupations

All courses - either the "private specialities" or those ending in an official certificate - may be classified in nine occupational categories, as follows :

- 1- Office work.
- 2- Industry.
- 3- Services.
- 4- Construction.
- 5- Tourism.
- 6- Health.
- 7- Independent work (+handicrafts).
- 8- Agriculture.
- 9- Languages.

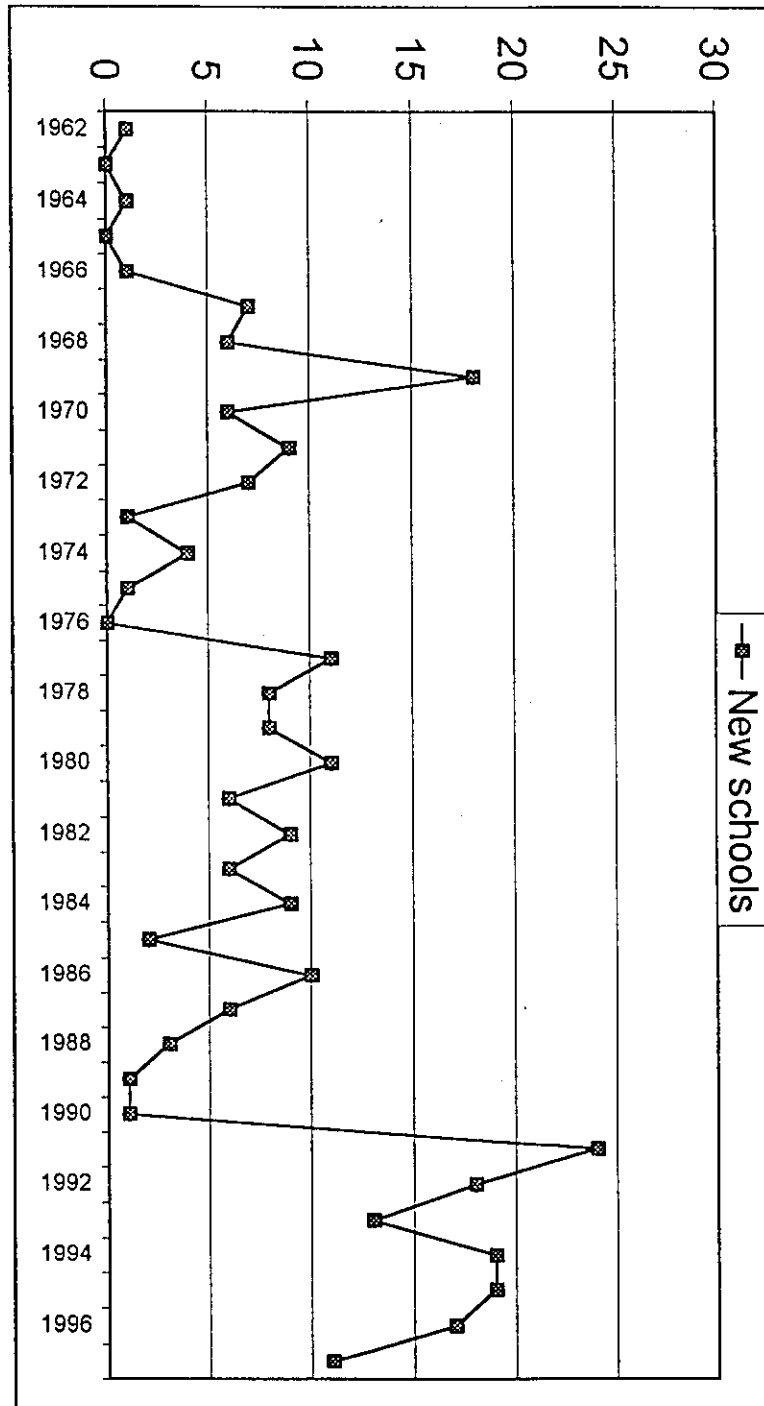

There are 106 private specialities run by the private schools. They distribute over the occupational categories as follows in table (1.5).

Type of occupation	One semester training	Two semester training	
Office work	6	9	
Industry	4	18	
Services	0	6	
Construction	1	6	
Tourism	10	10	
Health	3	2	
Independent work	19	8	
Agriculture	0	0	
Languages	4	0	
Total	47	59	106

Table (1.5)

1.9 Growth history

The graph (1.1) shows the variations of the number of newly licensed schools since 1962 (or before) and until 1997.

Graph (1.1)

Chapter 2

Students Population

In 1996 - 1997, about 46048 students were enrolled in private schools.

2.1 Distribution according to sex

Males population = 50.4 %
Females population = 49.6 %

When considering this distribution within the “private specialities” only, it ends to the following :

56.6% of the students enrolled in the “one semester courses” are females, and 67 % of those enrolled in the “two semester courses” are females.

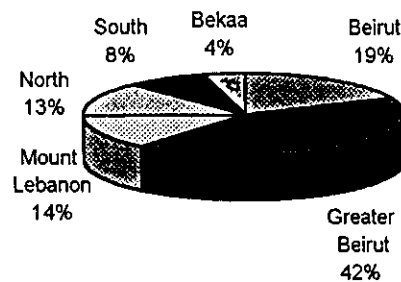

As for the distribution within the BT and the TS lines, females represent :

- 47% of the BT population of private schools.
- 45.5% of the TS population of private schools.

2.2 Regional distribution

Table (2.1) shows the geographical distribution of the students over the regions.

A quick calculation shows that 62% of the total Bekaa TVE population and only 42% of the Beirut population are females.

Zone	CAP						BP						BT						TS						LT		1			2

Table (2.1)

2.3 Distribution according to occupational categories

Table (2.2) depicts the students population distribution by sex in every mohafazat, according to the type of occupation. Females population is dominant in all categories except industry and tourism. On the other hand, no training programs are offered in the Bekaa region for tourism occupations.

Type of occupation	Region	Data	Total

Table (2.3)

2.4 Distribution according to the training levels

Training levels considered here are :

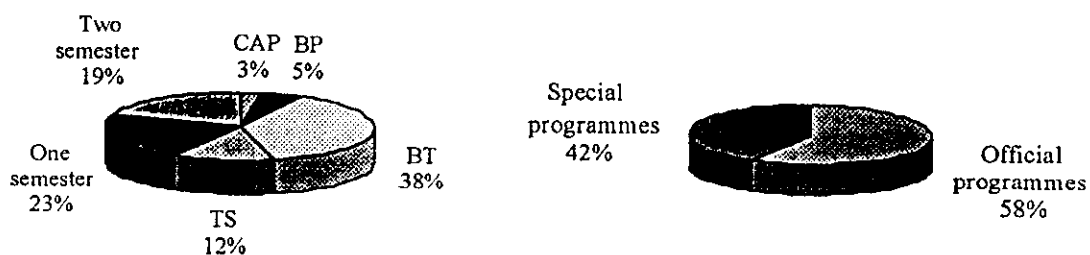

- One semester training.
- Two semester training.
- CAP
- BP
- BT
- TS

The students population is distributed over these levels according to table (2.4).

Training level	Data	Total	%
1 semester	Sum of Male attendance	3516	33.36 %
	Sum of Female attendance	7025	66.64 %
2 semesters	Sum of Male attendance	4750	54.71%
	Sum of Female attendance	3932	45.29%
BP	Sum of Male attendance	1432	62.83%
	Sum of Female attendance	847	37.17%
BT	Sum of Male attendance	9288	53.16%
	Sum of Female attendance	8184	46.84%
CAP	Sum of Male attendance	996	86.53%
	Sum of Female attendance	155	13.47%
TS	Sum of Male attendance	3035	54.71%
	Sum of Female attendance	2512	45.29%
Total Sum of Male attendance		23017	50.4%
Total Sum of Female attendance		22655	49.6%

Distribution by training level

Table (2.4)

2.5 Distribution over NGOs and individually owned schools

The students population of NGOs owned schools accounts for 17478, that is 38% of the total private schools population.

2.6 Geographical comparison between public and private schools

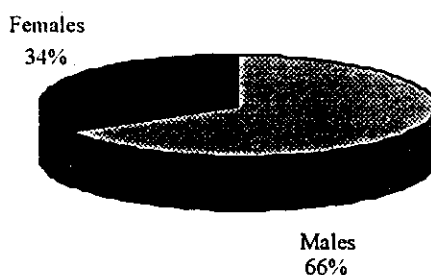

Table (2.5) shows a comparison between the relative distribution of public schools students over the regions and that of private schools.

Region	% of the public schools population	% of the private schools population
Beirut	-	19
Greater Beirut	40	42
Mount Lebanon	8	14
North	16	13
South	16	8

Chapter 3

Cost Evaluation

3.1 Teachers distribution over regions

Private schools employ 5265 teachers, most of them working as part time teachers. Males represent 59% of this number.

The distribution of teachers over the regions is described in table (3.1).

Regions	Males	Females	Total	Percent
Beirut	576	448	1024	19.5
Greater Beirut	1093	747	1840	35
Mount Lebanon	501	323	824	15.6
North	406	386	792	15
South	411	179	590	11.2
Bekaa	126	69	195	3.7
Total	3113	2152	5265	100

Table (3.1)

3.2 Equivalent number of full time instructors

To evaluate the full time faculty needed in each school, we proceed as follows :

First : Determining the total number of yearly teaching hours per course : HN-course

Second : Summing up the total teaching hours in each school, for each level : H-1 sem ; H-2 sem ; H-CAP ; H-PB ; H-TB ; H-TS. Then summing up all these sums = H-school.

Third : Evaluating the annual teaching hours delivered by a full time teacher, on the assumption that there are 22 effective weeks per year and that a teacher will deliver 24 hours per week. The product is 528.

Fourth : Dividing HN-school by 528. The quotient is the equivalent full time teaching staff by school.

As an alternative to "Third" and "Fourth", we could determine the equivalent teaching staff for each level. This allows a more precise qualitative distribution of the faculty. The results are exposed in table (3.2).

Levels	Total Nb of programmes offered	Yearly teaching load HN-course*	Total delivered hours	Equivalent full time instructors
CAP	37	550	20350	39
BP	127	550	69850	132
BT	897	550	493350	934
TS	386	550	212300	402
1 sem.	361	120	43320	82
2 sem.	479	500	239500	454

* For regular programmes (official certificates), the load is calculated as the product of 25 teaching hours per week by 22 actual weeks per year, i.e. 550 hours.

Table (3.2)

3.3 Estimated "teaching" cost

This estimation is based on the following average "fare" for the cost of one teaching hour :

- CAP 10\$
- BP 10\$
- BT 15\$
- TS 20\$
- 1 sem 10\$
- 2 sem 10\$

Table (3.3) shows the annual teaching costs per level :

Levels	Annual load	Unit fees	Total fees	Theoretical salary of an equivalent full time teacher *
CAP	20350	10	203500	434 \$/month
BP	69850	10	698500	440 \$/month
BT	493350	15	7400250	660 \$/month
TS	212300	20	4246000	880 \$/month
1 sem	43320	10	433200	440 \$/month
2 sem	239500	10	2395000	440 \$/month
Total			15,376,450	

* The monthly salary of one equivalent full time teacher is evaluated on a 12 month basis.

Table (3.3)

3.4 Other costs

These include :

- The administrative staff salaries.
- Overhead costs : rental value; telephone; water; electricity; local taxes; etc.
- Maintenance cost for the buildings, the playing grounds, the furniture and the equipment.
- Cost of material consumptions for practical works.
- Miscellaneous.

These costs may reasonably be estimated at 30% of the school budget (15% for the administrative staff and 15% for all other expenses) while the teaching costs represent the other 70%.

Hence, the "other costs" value is about 6.6 millions. The total expenses sum up to about \$ 22 millions.

3.5 Tuitions

The amount of the tuitions collected by various schools varies from one school to another.

Table (3.4) lists the mean values of annual tuitions that result from a comparison between several schools.

Levels	Amount (\$)	Total Nb of students	Total amount (\$)
CAP	500	1151	575500
BP	500	2298	1149000
BT	1000	17680	17680000
TS	1500	5574	8361000
1 semester	200	10378	2075600
2 semester	600	8919	5351400
Total			35192500

Table (3.4)

3.6 Results

The difference between the income of the private technical education sector (\$35 192 500) and its expenses (\$22 000 000) represents US\$ 12 million (30%) per year .

Sponsored Training

Introduction

Some public institutions are NGOs sponsor training programmes which are carried out by private schools according to specific terms of reference.

This chapter presents an overview of the main programmes falling under this definition.

4.1 National office for employment (ONE)

4.1.1 Sponsored schools

The ONE finances the training of a number of persons within selected schools. Table (4.1) summarizes this activity for the school year 1996 - 1997.

Institutions	Region	Nb of trainees in 1996-1997
1- Al Kafaat	Greater Beirut	222
2- Dar Al Inayah	Saida	67
3- Institut Technique du Chouf	Chouf	112
4- Mouvement Social	Beirut and suburbs	96
5- Sœurs des Franciscaines	Beirut	17
6- Ecole Al Amilia	Greater Beirut	127
7- Dar Al Sadaka	Bekaa	75
8- Association de la Protection de l'Enfant et de la Mère	Beirut	44
Total		760

Table (4.1)

The list of selected schools will include, in 1997-1998, two new schools :

- The Islamic Charity Association - Tripoli.
- The Technical Academy of the South - Tyre.

4.1.2 Specialities

The beneficiaries of the ONE fellowships are oriented toward the following specialities :

1. Sewing
2. Automotive mechanics
3. Turner
4. Installation electrician
5. Carpenter
6. Cook aid
7. Bakery worker
8. Pastry cook aid
9. Waiter
10. Secretarial worker
11. Electrical installation worker
12. TV worker
13. Nursing aid
14. Nursery aid
15. Automotive electrician
16. Cabinet-maker
17. Heating and air conditioning
18. Home appliances electrician
19. Welder
20. Industrial electrician
21. Electronics worker

4.1.3 Sponsoring conditions

- a- The ONE participates in the payment of tuitions within the limits of L.L. 500 000 per trainee.
- b- The trainee is charged an amount of L.L. 200 000 for complementing the tuition.
- c- The training duration varies from 500 hours to 800 hours.
- d- Trainees of all ages may be admitted.
- e- The curricula are set up by the training schools.

4.2 The Ministry of Social Affairs

4.2.1 Programmes

This Ministry cares for young people who face severe social conditions : orphans; handicapped persons; persons belonging to very poor families; etc. It cooperates with 163 charity institutions through typical agreements for providing accommodation, food, general care, basic education and vocational training to children covered by its assistance.

The training provided by the charity institutions may be of one of three types :

- Accelerated training : this is a non-formal training that could be assimilated to the 1 semester training or 2 semester training offered by private schools. By the end of this training, the student is not awarded any certificate.
- Vocational formal training : it ends in the official BP certificate.
- Technical education : it ends in the technical baccalaureate (BT).

4.2.2 Number of students

In 1997, the Ministry of Social Affairs sponsored the following students numbers in technical and vocational programmes:

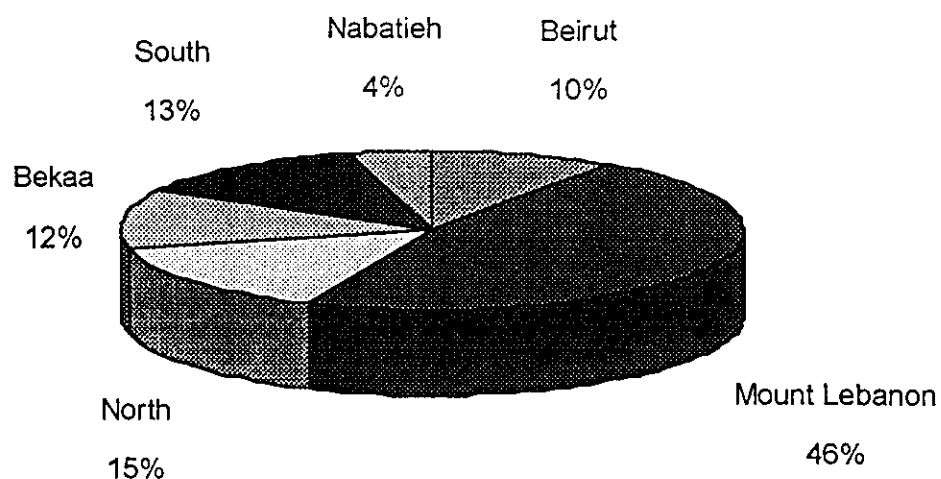

Level	Students number
Accelerated training	9 976
BP	2 975
BT	5 743
Total	18 693

Table (4.2)

Table (4.3) shows the distribution of NGO institutions and students over geographic zones and programmes offered during 1997.

Zone	NGO Institutions	Regular	Voc. train. 1	Voc. train. 2	Voc. train. 3	Tech. boarder BT	Tech. da BT	Voc. day BP	Total
Beirut	16	2478	929	50	-	1308	809	290	4765
Mount Lebanon	76	5348	2047	150	48	1101	1172	1727	8694
North	24	1882	635	60	20	139	459	235	2736
Bekaa	19	1975	280	61	-	90	100	310	2406
South	21	2075	518	165	25	355	190	193	3138
Nabatieh	7	675	-	-	-	-	20	220	675
Total	163	14433	4409	486	93	2993	2750	2975	22414

Table (4.3)

4.2.3 Financial contribution

The Ministry finances the studies of the students inside the charity institutions, on a daily basis.

Type of training	Financial contribution (L.L.)
Accelerated training (Boarding students)	4 400
Technical Baccalaureate :	
- Boarding students	5 700
- Outside students	3 500
Vocational formation	2500

Table (4.4)

4.3 The YMCA

4.3.1 Activities

This well known international association carries out training activities since 1978. Instead of relying on schools to run training programmes, it performs directly training sessions in cooperation with local communities. To this date, the YMCA has carried out more than 250 sessions for training people towards construction and industrial specialities. It nowadays tends to focus on new sectors like marketing and activities for the improvement of the role of women in economy.

4.3.2 Specialities

a- Construction work

- Concrete work
- Electrical wiring
- Painting
- Plastering
- Plumbing
- Shuttering
- Tiling.

b- Industrial work

- Sewing
- Embroidery work
- Weaving
- Automotive mechanics
- Automotive electricity
- Electric generators maintenance
- Heating and air conditioning
- Agriculture machinery
- Metalwork (structures)
- Automobile painting
- Diesel maintenance
- Agriculture.

c- Services

- Secretarial work
- Marketing (agricultural products)
- Cooperatives management.

4.3.3 Financial resources

The YMCA is financed by donations made by internal charity associations, the European Community and mainly by the AID.

Annexe 2

List of specialities in public and private schools

الجمهورية اللبنانية

مكتب وزير الدولة لشؤون التنمية الإدارية
مركز مشاريع ودراسات القطاع العام

*Specialities in public
and Private schools*

Reference

Vocational and technical NGO Private schools

Study prepared by Edutech SARL

October 1997

**CAP specialities
in public and private schools**

Speciality code	Speciality name	Public	Private
CAP 01	Typist		yes
CAP 02	Assistant typographer		yes
CAP 03	Tailor aid		yes
CAP 04	Carpenter	yes	yes
CAP 05	Fitter		yes
CAP 06	Blacksmith		
CAP 07	Welder	yes	yes
CAP 08	Installation electrician (Buildings)	yes	yes
CAP 09	Pastry cook aid		yes
CAP 10	Waiter aid		yes

Reference : Vocational and technical NGO Private schools
Study prepared by Edutech SARL
October 1997

**BP specialities
in public and private
schools**

Speciality code	Speciality name	Public	Private
BP 01	Accountant aid	yes	yes
BP 02	Beauty specialist		yes
BP 03	Blacksmith		yes
BP 04	Buildings Electrician	yes	yes
BP 05	Cabinet maker	yes	yes
BP 06	Car body repairer	yes	
BP 07	Dressmaker		yes
BP 08	Engine mechanics	yes	yes
BP 10	Machine electrician		yes
BP 11	Machinery mechanics		yes
BP 12	Nursing aid	yes	yes
BP 13	Pastry cook		
BP 14	Radio TV repairer	yes	yes
BP 15	Shorthand typist	yes	yes
BP 16	Waiter	yes	yes

Reference : Vocational and technical NGO Private schools
Study prepared by Edutech SARL
October 1997

**BT specialities
in public and private
schools**
