Reference
Vocational and technical Private schools in Lebanon
Study prepared by Edutech SARL
October 1997

Preliminary

Within the study carried out by Edutech about the private TVE in Lebanon, and in order to compare between the private and public sectors of education, some general data about the number of students in the public TVE and their distribution by certificates and by regions, were enclosed.

The study comprised the following :

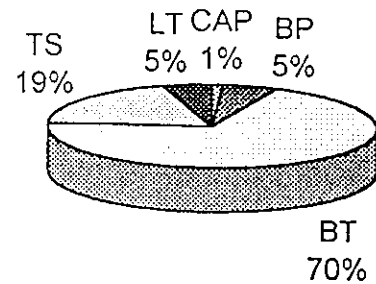

- Information concerning the distribution of students according to sex, certificates, specialities and regions.*
- Informative sheets about each institute and school, giving the number of teachers, and the students distribution according to sex, and years of study within each specialization path.*
